- **Hot Work** – for employees who conduct hot work activities.
- **Dangerous Goods/Hazardous Materials Shipping – (required every 2 years/air and 3 years/ground).** Learn how to legally ship dangerous goods/hazardous materials.

Success Stories:

-On a short timeline, we assisted a global pharmaceutical company by preparing over 30 training modules for their scientific, facilities, and administrative staff. The modules included site-specific photos and procedures.

- We delivered custom training (based on the written safety programs we developed) to a startup company in a timely and cost effective manner. Part of the training including mock safety inspections, which were included in preparation for a DOD funding audit.
